

THE MAGIC PAPER TRICK

This is a creative group exercise for three or more participants. The debrief analyses participants' preferences for E/I and T/F, and suggests development areas that help everyone to work with others more effectively to solve problems. Participants do not have to be in intact teams because the action plans are to help individuals to develop problem-solving and creativity in any group they join.

Applications:

Working more effectively with others

Creativity

Problem solving

Type preferences studied:

Extraversion/Introversion (E/I)

Thinking/Feeling (T/F)

Time required:

45 minutes
