

## ROLE REVERSAL

This is an S/N exercise that begins with some fun visuals and ends with participants working independently on their role descriptions to think more creatively about how they use information at work. The desired outcome is for participants to look beyond habits they may have fallen into, and instead to think about new ways of creating value in their roles.

### Applications:

Working more effectively

Creativity

Improving performance

### Type preferences studied:

Sensing and iNtuition (S/N)

### Time required:

30 minutes

Product code: JT0919e
